### Please Note:

Please arrive at the \_\_\_\_\_ at \_\_\_\_\_pm. See map for details.  
\_\_\_\_\_ will be there to greet you.

Included in your folder:

- The case: \_\_\_\_\_
- Scorecards
- The top teams' written presentations (Please read these prior to the case competition. The written presentation is a portion of evaluating the teams.)

Presentations will be scheduled every half hour. After each group has completed their presentation, please follow up by asking the group members questions that you have identified throughout their presentation. The goal of this Q & A session is to see how quickly group members can think on their feet, how well prepared they are, how much they know, etc. There is no time limit for the Q&A session for each group; please ask questions for as long as you need to receive the information you are looking for.

After all groups have presented and questions have been answered, please meet together as Target representatives to discuss who should be awarded 1st – 4th place. Please utilize the scorecards to rank each team on their written presentation, oral presentation, and creativity. Once your decision has been made, please present the scholarship check to the 1st place team. The professor may ask to take a photo of this group and you, as Target representatives.

\_\_\_\_\_ will escort you and other faculty to the reception in \_\_\_\_\_.
