Technology Tour # 2

Kaiser Permanente
University Club of Portland: 1225 SW 6th Ave, Portland, OR 97204

Kaiser Permanente, founded in 1945, is the largest managed care organization in the United States. It has an annual revenue of over $65 Billion and operates in eight states (Hawaii, Washington, Oregon, California, Colorado, Maryland, Virginia, Georgia) and the District of Columbia. As of October 2018, Kaiser Permanente had 12.2 million health plan members, 217,173 employees, 22,013 physicians, 58,345 nurses, 39 hospitals, and 620 medical offices.

Kaiser Permanente Information Technology offers a broad range of services in support of our guiding mission to provide high-quality, affordable health care services and to improve the health of our members and the communities we serve.

Join us to hear from inspiring leaders and influential up and comers as they share insight on topics such as:
- Current State of Care Delivery IT, Strategic Goals and What Healthcare Needs From IT
- Technology Consulting and Solution Delivery
- Healthcare Analytics
- Digital Innovations and Telehealth
- Panel Discussion with Recent Grads & New Team Members

*Parking Options ($5 for 3 hours)*
SmartPark, 4th and Yamhill - 818 SW 4th Ave, Portland, OR 97204
SmartPark, 1st, and Jefferson - 123 SW Jefferson St, Portland, OR 97204
Banquet Dinner, Scholarship Recognition & Keynote
University Club of Portland: 1225 SW 6th Ave, Portland, OR 97204

5:00 PM  Registration and Social
6:15 PM  Dinner
6:45 PM  Scholarship Recognition
7:10 PM  Keynote by Christina “CK” Kerley

We are witnessing a spectacular renaissance unfold as 10+ transformative technologies reshape every aspect of our lives. And whichever your chosen career—or field of study—these advancements will impact you in exciting and profound ways. In this special session, keynoter, futurist, and professor Christina “CK” Kerley will take attendees on an eye-opening, thought-provoking tour of The Tech Megatrends . . . and show you why the future favors those who embrace innovation.

While yesterday belonged to billions of smartphones, tomorrow belongs to trillions of smart things. Whereas the 20th century was about computers, the 21st century is about algorithms that will infuse “Added Intelligence” into all of our devices, industries, and activities. And just as Hollywood portrays robots as Terminators, in reality, they’ll act as our collaborators. These “CoBots” will help the elderly to live independently, the disabled to move freely, and doctors to operate across continents remotely.

Apps that monopolize our attention will be replaced by bots that free us from distractions. Drones will beam Web connectivity to the next billion users—with Blockchains bringing billions more into the global economy. And the Next-Generation Internet will be more of a real-world “Outernet,” due to the rise of connected devices, conversational computing, and 3D holograms. Our planet is becoming datafied, AI is making all things cognified, the next BIG things will be nano-sized . . . and more!

**Biography**

Powerhouse keynoter, futurist, and professor Christina “CK” Kerley pushes Fortune 500s ahead of the curve through the 10+ tech that will dominate the next 10 years.

Praised for her boundless energy, humor, and inspiration, she has wowed crowds at Verizon, Johnson & Johnson, Microsoft, Amazon, TEDx, E*TRADE, The United Nations, Bissell, Best Buy, Prudential, Cisco, Prudential, and more.

A top-rated faculty member at Rutgers Business School for Exec Ed, CK tackles the tough topics: from The Tech Megatrends, IoT, and Artificial Intelligence, to Next-Gen Marketing, Robotics, and High-Tech Health. Additionally, she has guest lectured at Stanford, Cornell, Carnegie Mellon, Northwestern, St. Peter’s, and USF.

Connecting with many generations—from Boomers to Zoomers—she works with professionals in IT, marketing, sales, HR, innovation, and leadership.

Based in New York City, for CK’s videos, tech, and topics, please visit: [https://allthingsCK.com](https://allthingsCK.com)
